## *What's New? A Lot!*

Change is in the air this spring at the Medical Imaging Board office! We are excited to announce many new endeavors including a new location, a new application process and a new employee. First, the Board office was relocated from Cool Ridge to Charleston and opened the door to a new office on April 2, 2018. Next, we implemented a new application process for all license types. The biggest change with the new application process is that all new applications are now required to be submitted on paper along with verification documentation and payment. Please be sure to check our website for more information.

Finally, we welcomed Lori Elliott to the Board staff on January 8, 2018. She replaced Sharon Bleau who retired on March 31, 2018 after five years of outstanding service with the Board. And don't forget about the new license renewal process that was implemented in 2017! Your 2017 paper license doesn't have an expiration date on it and licenses will no longer be mailed every year. License verification can be done via our website. As always, if you have any questions, please feel free to contact us anytime.

*Sincerely,*

*Jamie Browning, Director*
