4.1.i.1. The petition shall be submitted on an application form prescribed by the Board and shall include sufficient details about the individual’s criminal record to enable the Board to identify the jurisdiction where the conviction occurred, the date of the conviction, and the specific nature of the conviction.

4.1.i.2. The applicant may submit with the petition evidence of rehabilitation, letters of reference and any other information the applicant deems relevant to show fitness and the ability to practice medical imaging.

4.1.i.3. The Board shall provide the determination within 60 days of receiving the petition and the applicable fee from the applicant.

4.1.i.4. The fee for an applicant petitioning for a licensure eligibility determination is specified in the Schedule of Fees, and upon acknowledgement of eligibility by the Board and receipt of the application for licensure, the eligibility fee shall be deducted from the applicant’s initial licensure application fee.

The Board shall assess a fee for reinstatement of an expired license.

An inactive licensee may reactivate his or her license without examination by completing the reinstatement application, providing proof of active national certification and required continuing education, and submitting payment of the reinstatement fee.

An applicant for a temporary permit may apply to the Board up to six months after graduation from a Board approved medical imaging program. After six months, the applicant must show proof of passage of a Board approved registration examination and apply for a permanent West Virginia license.

The Board shall issue the temporary permit based on the date of application and payment of the required fee. The temporary permit will expire at the end of the sixth month after the date of issuance. Temporary permits may not be renewed or extended.
